Directions

1 UNIV 101 Course Evaluation Each term, we ask our students to fill out evaluations at the end of the term. Below are a series of questions that we are asking you to respond to about your UNIV 101 class. You should SELECT the appropriate response for each question. At the end, there are some questions that will allow you to write your own responses to help us understand how the course worked this term (we do read every comment). Your instructor will not get to see them until after grades have been submitted. Thank you.

I liked the following aspects of this course/topics covered:

(Text/Memo)

- This course gave me a broad idea of what my major is all about.
- Spent a lot of time discussing our major with professors in our field.
- NONE ASPECTS THAT I LIKE
- Open Discussion was good, other than that, nothing.
- I liked how we had guest speakers, but it did not really help me at all. However, it was interesting.

I did not like the following aspects of this course:

(Text/Memo)

- I liked everything about this course
- The syllabus did not provide adequate information for requirements not related to the major. We did not discuss very much of anything that was not directly related to Criminal Justice.
- EXCEPTING THE GUEST SPEAKER'S SECTION, ALL OTHERS ARE USELESS. THIS COURSE TEACHER LIKES TO IMPOSE HER IDEA TO US BY FORCING US TO DO THE MATTERS THAT SHE THINKS ARE POSITIVE.
- The teacher, the disorganization, lack of structure, the lack of knowledge in terms of following courses.
- I did not like using iwebfolio.

lack teacher  
related course

18

This is what I would like to see changed in this course:

(Text/Memo)

- I would not change anything about the course
- Explicit declaration of requirements for the online modules. I liked that it was oriented around my major, and therefore very integrated within it, but I heard a lot about the other aspects of University 101 from friends, not my professor.
- CHANGE THE TEACHER AND PLEASE TAKE BACK THE IPADS... WASTING MONEY!
- The teacher. The program also needs to be fixed before the students are put through the disorganization.
- I would like to talk more about our major and career opportunities.

19

Please add in any other comments that do not fit into the above categories:

(Text/Memo)

- No comments
- None
- IPAD FOR THIS COURSE IS WASTING MONEY AND THE TEACHER IS SO AWFUL.
- The technology we used was useless. The iPads were a waste of time, and the professors have no idea how to properly handle the new components. The iwebfolio caused a great deal of problems, and have little benefit to anything.
- Not impressed with this course.

Please type your responses to the questions below.

16

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- The community members. Open ended assignments, allowed creative thinking.
- Getting to meet new people, those within the Drexel community and those out of it. Also, doing an ethnography was the highlight of the course for me.
- The group projects and speakers that came to give the class new ideas and insight.
- This course integrated community members into our class, so it was intriguing to hear their point of views.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- The discussion boards allowed me to communicate my ideas and confusion to other students. It also allowed other students to give me feedback and was interesting.
- The professor was the first one that i was able to contact via phone during the course to get feedback on my work. She it one of a kind and it was great!
- N/A
- None
- That there was an average amount of work that made you think about the field and also relate to previous knowledge.

24

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- Nothing.
- Very thorough course.
- N/A
- I honestly felt like I didn't learn anything in the class. This professor was difficult to contact and replied infrequently. Due dates were not clear. Discussion boards were not thought provoking. I feel like I wasted a lot of money by taking this class.
- Essay exams are a little rough. Only having an hour and a half to write 5 pages worth of material you cannot properly study for is a little much, especially in addition to a research paper due on the same day. Not something about the course but something should be done about people posting very short original posts because it makes it very hard to respond. Also, try to have students use their brains and not just throw up some nonsense opinion that they do not even back up.

### Additional Comments.

Please type your responses to the questions below.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- The discussion boards were a very effective way of communicating. It allowed for students to be more open and honest with their opinions.
- I really enjoyed the discussion boards. Of course we needed to read the material but I felt like the discussion boards gave us the opportunity to express our honest opinions.
- Learned about different theories of sociology and common problems today
- I thought the power point, book, and video explanation were very helpful and allowed me to better understand the material.

24

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- The videos were out of date. There are definitely more relative videos.
- I don't think there are any changes I would make to the course.
- Instructor should use her own lectures, not Professor MacGregor's
- The rubric and parts of the syllabus were a bit confusing and not clear, I would recommend setting specific dates and proper wants/needs for the class.

# class

25

Please add in any other feedback that you would like to instructor to know about.

(Text/Memo)

- I don't have any other feedback.
- I enjoyed the course very much.
- Overall a great course
- I felt that I did learn quite a bit in this course. The structure was great and the communication with students and the instructor was also good.

1 UNIV 101 Course Evaluation Each term, we ask our students to fill out evaluations at the end of the term. Below are a series of questions that we are asking you to respond to about your UNIV 101 class. You should SELECT the appropriate response for each question. At the end, there are some questions that will allow you to write your own responses to help us understand how the course worked this term (we do read every comment). Your instructor will not get to see them until after grades have been submitted. Thank you.

I liked the following aspects of this course/topics covered:

(Text/Memo)

- Multiple activities that help me understand university better.
- I liked that instructors from our major came in to talk to us.
- I liked how we had different professors from our major come in and discuss with us not only the major itself, yet also their own research work in the field.
- guest speakers
- I enjoyed the lectures from other professors in the major.
- Meet the faculty learn about my major.

Directions

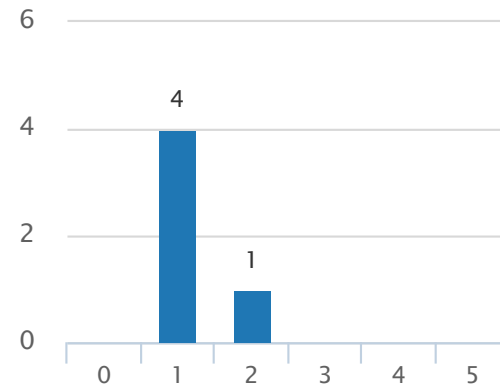

1 UNIV 101 Course Evaluation Each term, we ask our students to fill out evaluations at the end of the term. Below are a series of questions that we are asking you to respond to about your UNIV 101 class. You should SELECT the appropriate response for each question. At the end, there are some questions that will allow you to write your own responses to help us understand how the course worked this term (we do read every comment). Your instructor will not get to see them until after grades have been submitted. Thank you.

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- The technologies the professor used, the material presented.
- Great lectures and discussion points
- The organization and structure. Clear and understandable.
- The video, documentaries were a great addition in the strengthening of objectives.
- I think how the subject explored topics about ethics, socioeconomics and global warminf
- I thoroughly enjoyed partaking in the discussions with other students and learning about other people's opinions.
- I personally enjoyed how the instructor had class meetings where everyone was able to voice their concerns about certain issues pertaining to the course. I felt like this was a great source of communication to help everyone open up

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- Everything about the class was amazing.
- I honestly enjoyed this class so much. I think the best aspect of this class is that it took place inside the jail with inside students. Having the inside guys in our class has taught me a lot more than I would have learned if I was just in a classroom reading a textbook. I think that having the inside guys is the best aspect because they have knowledge of the correctional system, even though it may not be the best perspectives, which gives me a look at what happens behind what the public sees.
- n/a
- Talking to the inmates and having a safe environment to do it at
- The interaction and perspectives sharing with inside students.
- Interactivity

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- Don't require the textbook for class if we aren't going to use it
- I think that this class was perfect. I think it does need more structure with calling the guys down cause some classes we lost a lot of time because the guys were called down a half hour to an hour late. Time in this class was extremely valuable because we do not see these guys outside of there and I think they should have all been down there by the time we arrived.

(Text/Memo)

- Grading on time would be a lot easier for the students.
- I think that this was an amazing course. Honestly, I would not trade this experience for anything else. It has taught me a lot through the inside guys opinions. This course is going to remain with me forever.

If you did encounter any problems with the technologies that we used in this course, please explain here.

(Text/Memo)

- I was not able to see the discussion posts from my classmates on Bb site and was not made aware of any issues until I received a negative weekly grade from my instructor, who stated that I did not respond to my classmate's posts. This is ridiculous to have to encounter and given the amount of money I'm paying for each class, I expect a higher level of satisfaction and service from your IT professionals supporting the Bb platform. My grade shouldn't be affected by Drexel's incompetencies, period.
- The movie links never worked, and for the two weeks, none of the modules would work correctly.
- There were so tech difficulties involving blackboard as a class.
- Technology was fine.
- There were numerous issues with posting on the discussion board.

(Text/Memo)

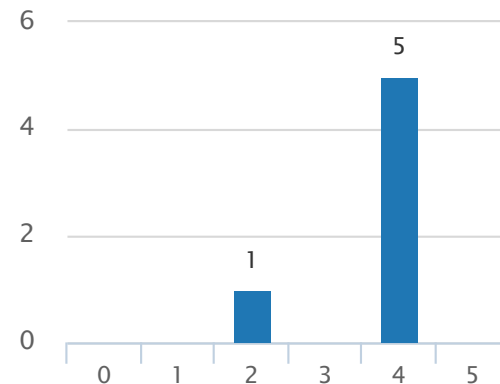

- There are other superior text books available for this course and I've taken other CJ classes that contained JJ information that was easier to comprehend compared to what was in this course's text. I was not a big fan of this text book.
- The textbook was very interesting, and I learned a lot. However, I grew to hate the book simply because the instructor did not seem to be using it for the quizzes since I and my fellow classmates failed most of them.
- The wrong textbook was cited and minimal effort was placed in making it right. I will be speaking with the dean regarding just how little was done to rectify the blatant error of requiring a different book then what was sold in the bookstore.
- The textbook we were told to buy for this course was Edition 5. However, all of the quizzes were based on Edition 6. Therefore, there were many questions that we did not have the opportunity to learn in the book I was using.

### Additional Comments.

Please type your responses to the questions below.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- flexibility
- The best aspects were the discussion boards back and forth with my classmates. However, I received average scores on them for no apparent reason. I worked hard on them, and it seemed as if my instructor just gave me the same grade for every discussion.
- Easy access to online class material
- None
- Great discussion boards with fellow classmates.
- The book gave a great overview of all of the aspects related to Juvenile Justice.

24

What specific, practical changes can you suggest that would make the course a better experience for future students.  
(Text/Memo)

- Drexel should reevaluate the requirement for this class because most of what was covered in this class is also covered in other CJ classes. I really didn't learn anything new because the information was captured in previous classes, which is why I don't see any value in it.
- The instructor should make sure bblearn is working correctly since the entire course is online. Also, there needs to be more of a presence of the instructor and a better course description of the requirements. The quizzes were very specific and seemed as if the instructor did not use the book. I talked to many other classmates that failed most of the quizzes as well. Even though I voiced my concern, it wasn't until week 6 that she announced she was no longer posting quizzes, but we still had to stress about these failing grades until week 6.
- Make quizzes easier
- Require the correct textbook and respond to student emails. I still have several emails sent from week 2, 3, 5, 7, and 8 that I have yet to get answers to. Very poor interaction!
- none.
- Clearer instructions from the Professor. We were given a syllabus which did not clearly state what the requirements were for the discussion board. For the Current Events project, we were vaguely told to do a project researching a current event in juvenile justice. We were given a rubric but no other clear instructions about what type of assignment was expected, ie powerpoint, research paper, etc. There were issues with the quiz so our professor said she would drop the lowest quiz grade and curve the rest. However, she has now told me that she is not updating any grades until Week 10. It is impossible to track my current progress in the course when there are four quiz grades that need updating from Weeks 1-4.

class

- Grades should be processed on a weekly basis, not once or twice a month.
- I didn't like how grades were rarely given back. I don't know where I stand in the class because the last grades we received were from week 6. It also was very difficult to reach the instructor through email, and it took forever for her to get back to me. This made the course especially difficult since there were no class meetings and emails were the only form of communication. Also, it would help a lot if the course was structured better and the course requirements were more clear. The due dates were always confusing because there were no dates just days of the week.
- None
- The instructor did not put any effort into this course and thus i learned almost nothing except what i read in the wrong textbook that i purchased.
- Clear dates on assignments and exams. More feedback.
- Communication was very poor. When asking a question, it would take two or three emails and weeks before a response was given. Many of the assignments in an online course have deadlines and it is impossible to properly complete the assignment in a timely manner if no response is given to the question asked in a timely manner. We were told that all grades would be posted the Monday after the week was complete. I find this important because if I am doing something wrong and do not have feedback or a grade from a past assignment, I have no way of knowing what I am doing wrong. We went weeks before discussion board posts were graded.

### Additional Comments.

Please type your responses to the questions below.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- My fellow students had great insights as some of them worked in the criminal justice system
- The BB discussion with my classmates was fun and interesting and I love learning and talking about the justice system.
- The discussions were very helpful. After reading the chapters and writing about our own thoughts, it was interesting to see how different students took the information and applied it to certain aspects. It also helped with the understanding of the topic as well.
- I really enjoyed how the course was laid out and administered. I learned so much more by collaborating and discussing each topic with my classmates than I have in any previous course I have taken with a lecturer and a quiz. I think it was the best experience I have ever had in a Drexel class.
- Course readings
- I enjoyed a lot of the discussions with classmates and their opinions on the Juvenile Justice System.

24

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- proofread everything.
- No changes, everything was on point.
- No changes.
- Make the videos easier to access.
- Updated portfolio topics or articles or documentaries
- A concise idea of what is needed for portfolio assignments. I was told to give my opinion during portfolios but was knocked in my final grade for doing so.

# class

25

Please add in any other feedback that you would like to instructor to know about.

(Text/Memo)

- I had issues with broken links and typos that made things confusing. Since online is the only way we are able to communicate with the instructor, it was frustrating to have things not be functioning properly.
- She was great.
- This was a very interesting and fun class. The material was great along with the discussions. It was a friendly and usable environment.
- Timely responses to emails are key in a class where there is no face-to-face communication. Waiting 5-7 days for a response to an issue or concern makes it difficult to be effective as an instructor and lowers the student's confidence.
- NA
- I feel overall that the class started out great and fell off. Grades were quick and feedback was helpful then it all ended. I received a number of negative comments for my Week 5 Portfolio in Week 8. This gave me no time to fix what needed to be fixed and my grade took a drastic hit because of it. My other issue is lack of understanding when DrexelOne messes up. I have had legitimate issues with DrexelOne that can be verified by IRT yet no understanding and no remorse. I live nowhere near Philadelphia and depend on technology for school, I feel that this is not understood by this instructor.

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- none
- Be upfront about additional costs. Try to cut down readings somewhat, or assign shorter readings. The average class reading was more than thirty pages.
- Less intensive readings. Most of the time we were assigned extremely long readings only to not even touch half of the first chapter out of three chapters assigned.

(Text/Memo)

- Professor's wide knowledge base helped us become more aware citizens. She has a passion for educating, as well as helping people less fortunate than ourselves, which is exactly what this class did.
- None.
- Personally the whole field notes/journal difference needed to be expressed better.

## Additional Comments.

Please type your responses to the questions below.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- Each module was interesting. The book explored the history of the criminal justice system as well as the present and current ideology
- Content and the quizzes.
- Very informative issues. Lots of critical thinking. I liked the portfolio segment of this course and it was good to have options.
- the readings
- The portfolios we had to do each week! I learned a lot by doing them!
- I enjoyed the discussion boards. Often times other students thought of ideas or concepts I didn't think of myself. It also provided a much bigger picture of opinions and perspective

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- n/a
- I liked the way the course was set up with quizzes and portfolio options.
- The course was well designed. I am a new student so it is difficult for me to make a statement as I have no basis for a comparison.
- unimportant work should be removed during the time given to produce a paper, many students have more than one class and this would greatly help
- N/A
- The electronic lectures could have a little bit more information in them.

25

Please add in any other feedback that you would like to instructor to know about.

(Text/Memo)

- The instructor was very responsive to online questions. That was very helpful in an online environment.
- Great class.
- Professor Rickards was an excellent teacher. She is kind, friendly and patient. I would highly recommend her class.
- I think the instruction should not penalize students for minor spelling mistakes in their submissions as the instructor's weekly course objectives and announcements contained many spelling errors, it's a hypocritical act..
- Instructor was amazing! I would absolutely take another class with her in the future! She was so understanding about a particular situation I had going on and was very reasonable with me! She also gave good feedback! AWESOME professor for a class that isn't even in my major, she made the topic much more interesting for me.
- I enjoyed your lectures, they helped with the discussion boards and portfolios, but I would have benefited from a little bit more information

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- The instructor was very thorough and helpful. A pleasure to be in her class!
- It was online which fit my schedule
- I enjoyed the course content and the portfolio assignments presented a range of assignment choices to choose from.
- .
- I liked the portfolio papers.

24

What specific, practical changes can you suggest that would make the course a better experience for future students.  
(Text/Memo)

- N/A
- The fact that the paper was due earlier than most classes
- I suggest having the instructor post comments to discussion boards as well and interact more with student discussion boards and comments.
- .
- For me, because I work everyday and at odd hours, it was hard for me to submit my discussion board answers by 5 pm on wednesdays. My last online classes had all the weeks assignments due on sundays by 9 pm, which made it easier for me to not scramble around trying to find enough time to put my complete mind into my work.

## Additional Comments.

Please type your responses to the questions below.

23

What were the best aspects of this course? (Please be specific.)

(Text/Memo)

- Interactive, it always came full circle
- The experiences at LIFT were very valuable and really taught me a lot about the real world and how life truly is in the city.
- The discussions.
- best class I have ever taken at Drexel so far
- I really liked how it was community-based, and how everything within lecture connected to what we learned at LIFT

# class

24

What specific, practical changes can you suggest that would make the course a better experience for future students.

(Text/Memo)

- more projects
- I think that the readings shouldn't be as lengthy and that not every class session should entail a group activity. I would like the occasional lecture every now and then.
- Getting rid of the intense readings and not going to LIFT.
- make simcity more engaging so students are encouraged to play it for an understanding, not just for credit and answers to reflections
- I would say more videos instead of readings because the readings are typically very long, therefore a lot of students don't read them.

25

- I liked the class overall but believe that it can be better.
